

Position: Data Configuration Analyst

Location: Dublin

About CSS:

Compliance Solutions Strategies (CSS) is a trusted global RegTech partner that uniquely brings together innovative technology- driven solutions to support financial services firms in navigating a clear and strategic path through the complex and fragmented global regulatory space. Our solutions and services help firms meet regulatory deadlines while optimizing compliance data, operations, and technology. CSS covers a full range of global compliance disciplines spanning fund reporting, transaction reporting, investment monitoring, compliance management, compliance services and managed services with a complementary, centralized approach to the strategic management of regulatory data called RBOR (Regulatory Book of Record). For more information on CSS, please visit: www.cssregtech.com.

Job Summary:

CSS is looking for a highly motivated and enthusiastic **Data Configuration Analyst** to support key RBOR clients. CSS's Regulatory Book of Record (RBOR) is a centralized data management system for regulatory data aggregation and enrichment across CSS's global regulatory compliance platform. CSS's RBOR builds comprehensive links between data sets, unravels duplicate source data integrations, and reduces manual aggregation. With one centralized, trusted store of data, firms can now handle market and regulatory demands with ease.

Responsibilities:

- The primary role of the Data Configuration Analyst is to on-board client's data sources into our RBOR centralized data management system using CSS configuration tools and scripting language.
- The Data Configuration Analyst is expected to gain an intimate understanding of our clients' data/business and will use their expertise to deliver ongoing quality data management services.

Requirements:

- Experience working with Relational Database Management Systems, preferably Microsoft SQL Server.
- Experience with a programming language or scripting language.
- Software engineering & or data analytics qualifications.
- Excellent interpersonal, teamwork & communication skills (both verbal and written)
- Excellent analytical and problem-solving skills, an ability to understand complex problems and generate appropriate pragmatic technical solutions.
- Fluent in English.
- Ability to work on own initiative, prioritize and organize daily tasks.
- Excellent attention to detail.
- Ability to work under pressure and to tight deadlines.
- Any financial data/fund industry experience would be an advantage.
- Understanding client's needs & requirements.
- Ability to follow complex data flows.
